

# Town of Milton Seeks Experienced Town Engineer

**Salary Range:** \$111,372–\$144,134

**Department:** Public Works

**Type:** Full-Time

Are you ready to take on a leadership role where your expertise will guide the growth, safety, and resilience of an entire community from the ground up? The Town of Milton is looking for a Town Engineer who will design and manage vital public infrastructure, ensuring that tradition, community values, and data-driven solutions work hand in hand. This is your opportunity to leave a lasting impact on a town that takes pride in both its history and its vision for the future.

Reporting to the Director of Public Works, you'll combine technical excellence and project leadership, handling everything from design reviews and estimating to construction oversight and regulatory compliance. This is a pivotal role for a licensed Professional Engineer who thrives in both the office and the field.

## **Preferred Qualifications:**

- Bachelor's degree in civil engineering or a related field required.
- Minimum of five years' experience in public works design and/or construction required.
- Professional Engineer (PE) license preferred and strongly encouraged.
- Strong understanding of civil engineering and surveying principles, especially for municipal and capital projects.
- Familiarity with construction methods, materials, safety procedures, and public funding expected.
- Understanding of funding opportunities and grants for public works projects.
- Proficiency with engineering software and basic surveying equipment required.
- Valid Massachusetts Class D driver's license required

Join a community that values smart growth, sustainability, and top-tier infrastructure. The Town of Milton is an equal opportunity employer.
