11/6/24

The Holyoke Water Works (HWW) is seeking a qualified full-time Drinking Water Operator. The qualified individual needs to have a Massachusetts Drinking Water License no less than a T2 OIT and a maximum of a T4 full and must have a valid Massachusetts motor vehicle license. Rate of pay and job description will depend on the individuals license and years of experience in the field of surface water disinfection and treatment. The range of pay is as follows \$28.25 - \$36.54 plus on-call, overtime, and stipend eligibility. HWW is a regulated municipal water supplier to over 40,000 residents and strictly follows all local, state, and federal guidelines.

General duties under the direct supervision of the Head Treatment Plant Operator and Superintendent include maintenance, repair, and operation of all treatment equipment including ultraviolet disinfection, chlorine gas disinfection, ammonia gas disinfection, and multiple corrosion control and oral health additives. Operations of supervisory control and data acquisition (SCADA) controls. Maintenance of structures, pumping stations, and storage tanks related to the drinking water supply. Takes and maintains records on a daily basis in accordance with Massachusetts 310 CMR 22.0. Deals with public relations directly related to water quality concerns. Takes and schedules samples in accordance with Mass DEPs sampling schedule and HWWs total coliform sampling plan. Intermediate computer skills working with Microsoft excel and word are also needed. May be required to perform other department duties at the direction of the Head Treatment Plant Operator and Superintendent.

Interested qualified parties should submit a resume to The Holyoke Water Works, 600 Westfield Rd. Holyoke, MA 01040 Attn: Matt Smith or emailed to SmithM@Holyoke.org.

Sincerely,

Matt Smith, Treatment and Source of Supply Supt.
