

Drinking Water Lead Operator Wanted!

Weston & Sampson is a 100% employee-owned, full-service environmental and infrastructure consulting firm made up of more than 800 professionals, who work together to develop innovative, cost-effective solutions for our clients. **Weston & Sampson Services is seeking a licensed, experienced Drinking Water Lead Operator to perform supervisory, operations and maintenance tasks for Massachusetts Public Water Systems. This position will require travel in the South Shore, MA area.**

What you'll do:

- Operate and maintain municipal and/or private drinking water treatment & distribution systems
- Preventive maintenance and repair of treatment equipment
- Water quality sampling and testing

What you will bring:

- 5-10 years of experience in drinking water treatment
- Massachusetts Drinking Water Treatment Operator license – Grade 2 or higher
- Massachusetts Drinking Water Distribution Operator license – Grade 2 or higher
- Valid Commonwealth of Massachusetts motor vehicle license
- Cross Connection Testing &/or Surveyor license preferred
- Basic mechanical and electrical repair experience preferred
- Good verbal communication skills, basic math skills, computer skills, and the ability to read technical instructions
- Understanding of Massachusetts drinking water regulations and treatment processes.

Salary:

Dependent on years of experience and licensing.

Incentives:

Pay increases may be offered with newly acquired licenses (Wastewater, Water, or other job-related licenses) as approved by the supervisor during the interview process.

Requirements:

This is a full-time position that may require various shifts and/or flexible hours. You will be expected to participate in being on-call, occasional overtime, holidays, weekends and nights.
