Water District System Laborer

The Belchertown Water District is accepting applications for a full-time position as System Maintenance Laborer. This position performs skilled technical work in the operation and maintenance of the municipal water supply system. Performs installations, maintenance and repairs of water mains and their appurtenances. Takes, records, and interprets readings of instruments monitoring the water process, maintains operational records. Inspects and maintains pumping stations and grounds in accordance with a daily schedule. This is a physically demanding position requiring work indoor and outdoor in all weather conditions. Must be available to respond to off hour emergencies.

High school education and experience in municipal water system or any equivalent combination of education and experience and strong mechanical aptitude is highly desirable. Applicant must possess a valid motor vehicle operator's license. This position has the opportunity to progress to Water System Maintenance Operator Laborer after obtaining Massachusetts Drinking Water Supply Operator's license Grade 1D/1T or 2D/2T, a Hoisting License 2A/2B.

Belchertown Water District offers a very competitive wage and benefit package. Starting salary is variable based on qualification and or experience

Job descriptions and employment applications are available at the Belchertown Water District, 206 Jabish Street, PO Box 801, Belchertown, MA 01007. Applications will be accepted until position is filled.
