

Our Company

At Pennichuck, we specialize in the collection, storage, treatment, distribution, and sale of potable water, ensuring that our communities have access to safe and reliable water. With a strong presence in both regulated water utility operations and non-regulated water management services, we are at the forefront of water sustainability and innovation.

Why Pennichuck? Be a Part of Something Bigger. At Pennichuck, your work will directly impact the health and well-being of our communities. Join us in our mission to provide clean, safe, and reliable water services.

Join Our Team: We are looking for passionate and qualified candidates to join our team and contribute to our mission of delivering exceptional water services. If you are driven by a commitment to sustainability, innovation, and community service, Pennichuck is the place for you.
