

The Acton Water District is looking to fill one of the following two positions on our team. Applications received by September 15, 2023 will be given priority consideration and the position will remain open until filled. To learn more about our organization, please visit www.actonwater.com. A job description is available at www.actonwater.com/about-us/job-opportunities. A cover letter and resume should be emailed to matt@actonwater.com. No phone calls please.

Water Systems Laborer

The Acton Water District is seeking an organized, energetic, self-motivated individual with strong mechanical aptitude and communication skills to be part of our team. Under the general supervision of the Assistant Foreman, the Laborer will assist in the maintenance of the buildings and grounds of the District, distribution/storage system, four water treatment plants, and multiple pumping stations. This is a full-time position, requiring some overtime and emergency response. Excellent benefits with a starting hourly rate (up to \$21) will be dependent on qualifications.

Water Distribution Operator

The Acton Water District is seeking an organized, energetic, self-motivated individual with strong mechanical aptitude and communication skills to be part of our team. Under the general supervision of the Assistant Foreman, the Operator will assist in the operation of the distribution/storage system, four water treatment plants, and multiple pumping stations. The position requires a minimum of a D2 and T2 water operator license. Backflow testing and level 2B hoisting licenses desirable. This is a full-time position, requiring some overtime and emergency response, with the expectation to go on scheduled rotating call after a probationary period. Excellent benefits and hourly rate (starting at \$25) will be dependent on qualifications.
