

TOWN OF FALMOUTH SUPERINTENDENT – WATER

The Town of Falmouth Public Works department is seeking a Water Superintendent with the skills to lead and manage a modern and dynamic water supply/treatment system. The department five years ago built a new surface water treatment plant that provides superior quality water to approximately 21,000 water accounts. The system includes 400 miles of main and 3000 hydrants. Supply and demand are seasonally variable and delivers 1.5 billion gallons of water annually to its customers. Successful candidate will prepare and administer operating and capital budgets of division; develop and implement annual capital program, 5-year and 20-year capital investment plans; oversee daily operations of division by directing work activities of approximately 20 employees; resolve personnel issues, ensure regulatory compliance; prepare bid specifications. Bachelor's degree in a related field: five years' experience as water or utilities manager, knowledge of a distribution level 4 water supply and treatment level 4 system and a Mass. Drinking Water Facilities Licenses T-4 and D-4 Operator in Training License preferred or equivalent combination of education and experience, valid Mass. Driver's license, excellent communications, and business management skills. Salary range is \$90,064.00 - \$117,499.20/yr. DOQ

Full job description, employment application and instructions for applying can be found at [Falmouth Job Opportunities](#). Preference Date: September 30, 2022. The Town of Falmouth is proud to be an EEO/AA employer.
